WoO Craftsman Sprint Series 2017 Rules Bulletin #3

**15.11.6 Head and Neck Restraints**

- A.) At all times during an event, including practice, qualifying and competition (excluding starting the car for engine warm-up) drivers should wear an SFI-approved head and neck restraint device/system that is properly mounted and connected per the manufacturer's instructions. The device should meet SFI 38.1 specifications and display a valid SFI 38.1 label. **This requirement will become mandatory May 10, 2017.**
- B.) The head and neck restraint must be SFI 38.1 approved and display a legible and valid SFI 38.1 label.
- C.) Arm restraints are recommended and must be connected and used as instructed by the manufacturer

The above information is subject to change per World of Outlaws guidelines.
